Profile

Front-end Developer with 5 years of experience building responsive web applications and commercial products. Strong experience with Vue.js, Nuxt, JavaScript and TypeScript, as well as React and Next.js. Experienced in REST API and WebSocket integrations, state management, complex UI development, animations, performance optimization and responsive layouts. Comfortable working closely with backend developers, designers and product teams.

Employment History

Front-end Developer at Viseven, Odessa

SEPTEMBER 2021 – JANUARY 2023

Developed components for a presentation builder designed to demonstrate medical products using Vue.js. Created and adapted presentations with responsive design optimized for iPad.

Front-end Developer at Alma-Soft, Odessa

JANUARY 2023 – PRESENT

Developed and maintained commercial web applications using Vue.js, Nuxt, React and Next.js. Participated in migrating an iGaming application from Vue 2 to Vue 3 and later to Nuxt 3. Built reusable UI components, integrated REST APIs and Socket.IO-based real-time functionality, and worked on responsive interfaces, localization and performance optimization.

Selected Projects

[iGaming Platform](#) — Nuxt 3, Vue 3, Socket.IO, Vuex, Vue I18n, SCSS

Commercial responsive iGaming platform with real-time Socket.IO communication, REST API integrations, multilingual support, reusable UI components and SSR/PWA functionality.

[Artyfact Landing & Marketplace](#) — Next.js, React, TypeScript, Redux Toolkit, React Query, Tailwind CSS

Worked on refactoring and developing responsive UI for a Web3 platform. Built reusable components, worked with API integrations, authentication, forms, state management and responsive layouts.

[Interactive Company Website](#) — Vue 3, GSAP, Vue Router, Vuex, Tailwind CSS

Developed a responsive multi-page website with complex GSAP animations and custom animated page transitions. Integrated an AI assistant and implemented and tested Google and LinkedIn authentication, coordinating provider-side configuration.
