Roman Kochetov

Frontend Developer | Vue.js / Nuxt.js / React / Next.js / TypeScript

Odessa, Ukraine • +380663716961 • ko4ergo@gmail.com • Особистий сайт

PROFILE

Frontend Developer with 5+ years of experience building commercial, responsive web applications using Vue.js, Nuxt.js, React, Next.js, JavaScript and TypeScript. Led frontend architecture and migration of a high-traffic iGaming platform, integrating REST APIs, WebSocket/Socket.IO, SSR, PWA and i18n. Strong in performance optimization, complex animations and reusable component libraries, collaborating closely with backend and product teams.

WORK EXPERIENCE

Jan 2023 – Present

Front-end Developer, Alma-Soft · Odessa

- Developed commercial web applications using Vue 3, Nuxt 3, React, Next.js and TypeScript.
- Led frontend architecture for routing, layouts and reusable, state-driven components for an iGaming platform.
- Migrated a production platform from Vue 2 to Vue 3 and later to Nuxt 3.
- Integrated REST APIs and real-time functionality using WebSocket/Socket.IO for chat, payments and live events.
- Implemented SSR, PWA capabilities, multilingual interfaces with i18n and fully responsive layouts.
- Delivered localized, real-time promotional features, including a Socket.IO prize wheel, giveaways and in-app chat.
- Optimized animations, asset loading and rendering, reducing visible loading and UI jank by ~20–30% on key pages.

Sep 2021 – Jan 2023

Front-end Developer, Viseven · Odessa

- Developed and maintained reusable Vue.js components for a pharmaceutical presentation builder.
- Built and adapted responsive presentation interfaces optimized for iPad, fixing layout and UI issues across projects.
- Implemented designs from Adobe XD, Photoshop, Illustrator and InDesign, collaborating with designers to deliver production-ready components.

SELECTED PROJECTS

Present

iGaming Platform

Nuxt 3, Vue 3, Socket.IO, Vuex, Vue I18n, SCSS

Commercial responsive iGaming platform with real-time Socket.IO communication, REST API integrations, multilingual support, reusable UI components and SSR/PWA functionality.

Present

Artyfact Landing & Marketplace

Next.js, React, TypeScript, Redux Toolkit, React Query, Tailwind CSS

Worked on refactoring and developing responsive UI for a Web3 platform. Built reusable components, worked with API integrations, authentication, forms, state management and responsive layouts.

Present

Interactive Company Website
Vue 3, GSAP, Vue Router, Vuex, Tailwind CSS
Developed a responsive multi-page website with complex GSAP animations and custom animated page transitions. Integrated an AI assistant and implemented and tested Google and LinkedIn authentication, coordinating provider-side configuration.
